

Acky Kamdar,
CEO,
Magic EdTech,
New York.

Dear Acky Kamdar,

RE: Application for software development internship at Magic EdTech

My name is Eunice Musenyia, an entry-level software developer with a profound interest in crafting intuitive and inclusive solutions that bring changes to individuals' lives. I am writing to express my interest in a software development internship role at Magic EdTech.

As a firm believer in the transformative power of education, I am eager to leverage my skills to equip learners with the necessary tools and educational materials to unlock a bright technological future and successful careers. I am inspired by Magic EdTech's commitment to helping educators and corporations make learning accessible, analytics-driven, and device-agnostic. I particularly love how the company designs, tests, and certifies learning solutions and how the company uses AI and AR to gamify learning thus making it more engaging. Joining the Magic Edtech team will be a solid opportunity for me to learn and grow professionally and personally while contributing to the company's mission to make lifelong digital learning accessible, affordable, and sustainable.

I am currently collaborating with a team of four on a project to develop a system to improve immunization rates in Somalia by efficiently tracking children's vaccinations for NGOs.

I am looking forward to hearing from you. Thank you for your consideration.

Yours sincerely,
Eunice Musenyia
